0628526284 | [tomicnikolaftn@gmail.com](mailto:tomicnikolaftn@gmail.com) | [Portfolio](#) | [Github](#) | [Linkedin](#)

Novi Sad, Serbia

## Education

- Bachelor of Electrical and Computer Engineering, Status – Graduated  
Faculty of Technical Sciences, University of Novi Sad

## Work Experience

### ***Full-Stack Developer – Freelance***

*January 2025 - Present*

- Developed a modern website using HTML, CSS, and JavaScript to provide custom digital invitation services with RSVP functionality, helping attract and manage over 60 clients while simplifying event organization for users.
- Built a personal portfolio website using React.js and Tailwind CSS to showcase projects and technical skills, while integrating backend functionality with Node.js, Express.js, MongoDB and RESTful APIs, resulting in increased client interest and new freelance opportunities.

### ***DNP Engineering, Novi Sad – Engineer***

*October 2025 – Present*

- Worked closely with investors and project stakeholders to adapt technical solutions and maintain efficient project workflows, resulting in successful project delivery and improved team coordination.
- Used engineering software tools for technical documentation, system analysis, and project coordination, helping ensure accurate work and on-time project completion.

## Projects

### ***PawMeet – Real-time Social Chat App for Dog Lovers*** | [Website](#) | [Github](#)

***Tech Stack: React.js, Express.js, Node.js, MongoDB, Tailwind CSS, Cloudinary,***

- Built a real-time social chat application for pet owners using React.js and Tailwind CSS, enabling users to connect and chat, resulting in an interactive real-time communication experience.
- Architected a scalable backend using Node.js, Express.js, and MongoDB with a RESTful API architecture, implementing custom JWT authentication, API rate limiting, and real-time communication via Socket.io, resulting in a secure and stable system capable of handling concurrent user interactions.

### ***E-commerce Shop with Admin Dashboard & Analytics*** | [Website](#) | [Github](#)

***Tech Stack: React.js, Express.js, Node.js, MongoDB, Tailwind CSS, Stripe, Cloudinary***

- Designed an e-commerce application using React.js and Tailwind CSS, enabling users to browse products, manage shopping carts, apply coupon codes, and access an admin dashboard with analytics, resulting in a smooth, responsive, and intuitive online shopping experience.
- Implemented a secure backend using Node.js, Express.js, and MongoDB with a RESTful API architecture, integrating Stripe payment processing, Cloudinary for media handling, and authentication-protected routes, resulting in a scalable and production-ready system.

### ***SaaS Landing Page*** | [Website](#) | [Github](#)

***Tech Stack: React.js, TypeScript, Tailwind CSS***

- Built a modern SaaS landing page using React.js, TypeScript, and Tailwind CSS, designing a responsive and visually appealing interface with smooth UI interactions and reusable components, resulting in a conversion-focused and user-friendly landing experience.

### **Technical Skills**

Git, GitHub, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Node.js, Express.js, MongoDB, Next.js, RESTful APIs, Postman, Socket.io, Vercel, Cloudinary, Stripe, Render.
